Similarly other out patient Department need to be staffed based on actual observation.

JUSTIFICATIONS:

- Needs may vary from hospital to hospital depending on the size of hospital and service rendered more staff than anticipated will be required.
- Special attention is needed for supervision of patient care on the evening and night shift.

30% leave reserve is suggested because nurses get 2 off, 30 Earned Leave and 12 Casual leave/24 days off in a year. Also it has been observed that on any working day 25% of the staff on casual leave etc.

A nurse works for 240 days in a year whereas hospital require nursing services for 365 days, for 24 hours, which means to depth work for 1/3 nurse is required that is why 30% leave reserve is needed.

3. Dieticians: In order to prescribe diet on the scientific lines for different types of patients the services of qualified dietician are essential in all the teaching hospital.
4. Pharmacists: As required for Hospital.
5. Class III and IV personnel-as required for hospital.
