**2.22 Furnishing of MCI's comments on Counsel General of India, Kingdom of Saudi Arabia's letter regarding problem faced by Indian health professionals in Saudi Arabia pertaining to equivalence of their degrees with health professionals from other countries working in Saudi Arabia :** After discussion, the BOGs felt that, in the first instance, it is necessary to look into the comparative position of the course contents, curriculum, duration, total hours of study (theory & practical) of the 4 year-post graduation course obtaining in countries like, UK, USA, Saudi Arabia, Egypt vis-à-vis those included in our 3 Year-post graduation courses in India. Since the PG course contents, curriculum, duration, total hours of study (theory & practical) in medical education all over the world are more or less the same, the idea of conducting a comparative study of these aspects is to see whether our 3 year PG Courses are not really covering all the above aspects during their 3 year PG programme and if that is so, then there is a strong case for us to argue that the Indian 3 year PG Course should be equated with that of 4 year PG courses prevalent in other countries. After discussion, it was decided that our Equivalence Committee should study the comparative picture and submit its recommendation for further consideration by the BOGs.

The meeting ended with vote of thanks to the Chair.
