3. Pending items arising out of the decisions taken by the Executive Committee.

The members of the Adhoc Committee appointed by the Hon’ble Supreme Court and of the Executive Committee of the Council noted the list of the pending items arising out of the decisions taken by the Executive Committee with the following observations:-

- (a) The State Governments and the Managements of the colleges have been repeatedly asking for postponement of inspection for verification of the compliance submitted by the colleges in respect of compliance verification inspections to be carried out for continuance of recognition. In various cases, the Council has recommended to the Central Govt. for withdrawal of recognition/issue of show cause notices to the concerned colleges for not rectifying the deficiencies within the stipulated time given to the colleges. It was also observed that inspite of time being given by the Council for rectifying the deficiencies repeatedly, no serious efforts are being initiated by the colleges for rectification of the deficiencies. It was also observed that no action has been initiated by the Central Govt. in several cases. All these eventualities result in students being trained in such colleges with grossly inadequate facilities in terms of teaching faculty, infrastructure and clinical material as the final decision is not taken for a long time and sub-standard medical education being imparted which will result in tremendous repercussion. It was felt that the Regulations of the Council be framed for incorporating time bound action in the matter to avoid such eventualities. It was also felt that the Central Govt. be apprised of this issue as it is vital for growth and development of medical education in the country.
