99. Recruitment of Various posts in the Council office.

Read: the matter with regard to recruitment of various posts in the Council office.

The Executive Committee of the Council perused the matter alongwith the corrigendum included as additional item as under:

“It is stated that an advertisement was published in the newspapers to fill up the vacant posts of i) Deputy Secretary (Medical), ii) Telephone Operator cum receptionist, iii) Computer Operator, iv) LDCs, v)n Staff Car Drivers, vi) Electricians, vii) Messenger and viii) Peon in the month of May 2016 and the last date of receiving the hard copies of applications was 10.06.2016. Interviews for the post of Deputy Secretary were held on 28.06.2016 and the posts were filled up in July and August, 2016.

A large number of applications were received for the other posts as mentioned above and thereafter scrutiny of applications was taken up. It was a very time consuming exercise and the final report about status of the scrutiny was submitted on 30.12.2016. Thereafter, another hurdle occurred regarding the vacancy of Staff Car Driver and the matter was referred to the Law Officer for legal opinion. This also took about 2-3 months and only thereafter, legal opinion was received.

The Bal Bharti Public School, Dwarka was finalized as Centre for conducting the written examinations for the above mentioned posts. The proposal was approved by the Executive Committee at its meeting held on 21.03.2017. Their rates were Rs. 130/- per candidate only for examination centre. The approximately applications are 17000.

Thereafter, the question of paper setting, checking of the papers was discussed. In this process a letter was received from the Vice Chancellor, Baba Farid University of Health Science, Faridkot (Punjab) and they offered to conduct the examination at various location in Delhi, setting of papers and preparation of final result. It was also proposed by them that usually charges of Rs. 1000/- per candidate is charged for recruitment tests. As it was a Govt. University, it was considered appropriate to explore the possibility from other such Govt. institutes which conduct recruitment process.

In this regard, some officers from DSSSB were contacted and the name of EDCIL (India) Limited, A Govt. of India Enterprise, was suggested. Accordingly, officers of EDCIL were contacted and they have submitted their proposal. It was made clear to the EDCIL that MCI has already advertise the posts, received applications and scrutinized the applications also. EDCIL officers took note of this and stated that they would quote their rates from that stage only. Their rates will be Rs. 719/- per application plus Rs. 6,00,000/- for setting up question paper and its translation. The total cost would be approximately Rs. 1.28 crores. During the process, they will undertake sending of admit cards, online examination on computers in different centers in and around Delhi and then giving final results to the MCI.”

The Executive Committee of the Council further observed that the application for the following posts are voluminous and not possible for the Council Office to conduct the written examination and setting of question papers and evaluation thereof :

1.	Stenographer, Grade –III/II
2.	Telephone Operator – cum – Receptionist
3.	Computer Operator
4.	Lower Division Clerk
5.	Staff Car Driver (Ordinary Grade)
6.	Electrician
7.	Messenger

Further, the quotations given by EDCIL are too high and it would be a huge financial burden on MCI as postal orders have also not been taken from the applicants.

In view of above, the Executive Committee decided to keep these appointments in abeyance. However, it has been observed that the applications for the post of Electrician and Staff Car Driver are very less and manageable. Also, as a new vehicle is being purchased against one condemned car and a post of driver is lying vacant since more than a year, therefore, the Executive Committee decided and directed the office to arrange for the written test/skill test for the posts of Electrician and Staff Car Driver. As per govt. guidelines the selection has to be decided without taking the interview of the candidates. Therefore, the office should formulate such parameters for selection of the candidates, so that they may be selected without interview.

The minutes of the above item were read out, approved and confirmed in the meeting itself.

2. After having considered the recommendation of MHFW contained in para 2 to 4 of MHFW letter dated 30 March 2017 in the above matter, OC decided to direct MCI to process the applications of the colleges mentioned in para1 above for the academic year 2017-18, in terms of para 105 of the judgment of Hon’ble Supreme Court dated 02 May 2016 in Civil Appeal Nos. 4060 to 4065 of 2009 in Modern Dental College & Research Centre and Ors. Vs State of M.P. and Ors.

3. This issued with the approval of Oversight Committee

4. Receipt may please be acknowledged.”

This is with reference to the letter bearing no. OC/New Medical Colleges-Telangana/ 2017-18/183 dated 17.04.2017 of the Hon’ble Supreme Court Mandated Oversight Committee. The Oversight Committee Vide the said letter, had, after considering the recommendation of MHFW contained in para 2 to 4 of MHFW letter dated 30 March 2017, requested the MCI to process the applications of following four Medical Colleges in the State of Telangana:

- (1) *Ayaan Institute of Medical Sciences, Kanakamamidi, Telangana*
- (2) *Surabhi Institute of Medical Sciences, Medak, Telangana*
- (3) *TRR Institute of Medical Sciences, Medak, Telangana*
- (4) *Dr. RatnamMahender Reddy Institute of Medical Sciences, Ranga Reddy, Telangana*

2. The Council, had considered the schemes submitted by the afore-named medical colleges, for establishment of new medical college from academic year 2017-18. However, the Council, upon initial scrutiny, noted that the said medical colleges had submitted consent of affiliation issued by the Dr. NTR University of Health Sciences, Vijaywada, Andhra Pradesh. Whereas, the State Government of Telangana, vide its letter dated 22.07.2015, had informed the Council office that Kaloji Narayan Rao University of Health Sciences (KNRUHS), Warangal, would be issuing the consent of affiliation in respect of medical courses in the State of Telangana and that the consent of affiliation issued by Dr. NTR University of Health Sciences on behalf of KNRUHS shall be valid upto 31st December, 2015.

3. Therefore, the Council, in view of the above-mentioned letter dated 22.07.15 of the State Government of Telangana, as well as the directions passed by the Hon'ble Supreme Court in the case of Royal Medical Trust Vs. Union of India & Ors. - (2015) 10 SCC 19, decided to return the schemes submitted by the afore-named medical colleges for establishment of new medical colleges from academic year 2017-18, as they had failed to submit a valid consent of affiliation from the concerned University. The relevant portion of the said judgment passed by the Hon'ble Supreme Court in Royal Medical Trust Vs. Union of India & Ors. - (2015) 10 SCC 19, is reproduced hereunder:-

“.....31. MCI and the Central Government have been vested with monitoring powers under Section 10-A and the Regulations. It is expected of these authorities to discharge their functions well within the statutory confines as well as in conformity with the Schedule to the Regulations. If there is inaction on their part or non-observance of the time schedule, it is bound to have adverse effect on all concerned. The affidavit filed on behalf of the Union of India shows that though the number of seats had risen, obviously because of permissions granted for establishment of new colleges, because of disapproval of renewal cases the resultant effect was net loss in terms of number of seats available for the academic year. It thus not only caused loss of opportunity to the students community but at the same time caused loss to the society in terms of less number of doctors being available. MCI and the Central Government must therefore show due diligence right from the day when the applications are received. The Schedule giving various stages and time-limits must accommodate every possible eventuality and at the same time must comply with the requirements of observance of natural justice at various levels. In our view the Schedule must ideally take care of:

(A) Initial assessment of the application at the first level should comprise of checking necessary requirements such as essentiality certificate, consent for affiliation and physical features like land and hospital requirement. If an applicant fails to fulfill these requirements, the application on the face of it, would be incomplete and be rejected. Those who fulfill the basic requirements would be considered at the next stage.

(B) Inspection should then be conducted by the Inspectors of the MCI. By very nature such inspection must have an element of surprise. Therefore sufficient time of about three to four months ought to be given to the MCI to cause inspection at any time and such inspection should normally be undertaken latest by January. Surprise Inspection would ensure that the required facilities and infrastructure are always in place and not borrowed or put in temporarily.

(C) Intimation of the result or outcome of the inspection would then be communicated. If the infrastructure and facilities are in order, the concerned Medical College should be given requisite permission/renewal. However if there are any deficiencies or shortcomings, the MCI must, after pointing out the deficiencies, grant to the college concerned sufficient time to report compliance.

(D) If compliance is reported and the applicant states that the deficiencies stand removed, the MCI must cause compliance verification. It is possible that such compliance could be accepted even without actual physical verification but that assessment be left entirely to the discretion of the MCI and the Central Government. In cases where actual physical verification is required, the MCI and the Central Government must cause such verification before the deadline.

(E) The result of such verification if positive in favour of the Medical College concerned, the applicant ought to be given requisite permission/renewal. But if the deficiencies still persist or had not been removed, the applicant will stand disentitled so far as that academic year is concerned.

.....”
 4. Accordingly, the schemes submitted by the afore-mentioned medical colleges for establishment from academic year 2017-18, were returned to Central Govt. vide letter dated 06.09.2016, alongwith the recommendation for disapproval of the schemes submitted by the applicant societies.

5. Subsequently, the Govt. of India granted hearing to the officials / representatives of the aforesaid medical colleges, wherein, the applicants had submitted fresh consent of affiliation issued by KNRUHS and the same were forwarded by the Ministry to the Council vide letter dated 07.11.2016.

6. The Council considered the Govt. of India letter dated 07.11.2016, and in view of the directions passed by the Hon'ble Supreme Court in the case of Royal Medical Trust (supra) as well as the statutory time schedule of the Council, as upheld by the Hon'ble Supreme Court and noted that the consent of affiliation forwarded by the Govt. of India vide the said letter had been submitted after the lapse of the cut-off date i.e. 7th July, 2016, for submission of complete schemes, to the Govt. of India. Therefore, the Council decided to reiterate its earlier decision to return the schemes, submitted by the aforesaid applicant medical colleges, to the Govt. of India, alongwith the recommendation to not grant permission for establishment of new medical college from academic year 2017-18.

7. Accordingly, the above-mentioned decision of the Council was communicated to the Govt. of India vide MCI letter dated 01.12.2016.

8. However, the Oversight Committee, vide the letter dated 17.04.2017, has requested the MCI, to consider the case of the above named medical colleges for grant of permission for establishment from the academic year 2017-18.

9. It is pertinent to mention that the any scheme / application for establishment of new medical college has to be processed in accordance with the time schedule as prescribed in the Establishment of Medical College Regulations, 1999. The presently applicable time schedule has been accorded approval by the Hon'ble Supreme Court vide judgment dated 18.01.2016 passed in the case of Dr. Ashish Ranjan & Ors. Vs. Union of India & Ors.- (2016) 11 SCC 225. The time schedule for processing of application for grant of permission for establishment of medical college is reproduced hereinbelow:-

6.	Issue of Letter for permission by the Central Government.	By 31 st May

Note 1. In case of renewal of permission, the applicants shall submit the application to the Medical Council of India by 15th July.

10. The Hon'ble Supreme Court on various occasion have held that an incomplete / defective scheme u/s 10A of IMC Act, 1956, is not even fit for registration and is liable to be rejected at the threshold, itself. The Hon'ble Supreme Court in the case of Govt. of A.P. Vs. Medwin Educational Society - (2004) 1 SCC 86, has been pleased to, inter-alia, hold as under: -

“....In accordance with the statutory time schedule for grant of permissions/renewals to MBBS and PG courses etc. reproduced in para-28 and pg.81-82, MridulDharVs. UOI&Ors. - (2005) 2 SCC 65, the strict adherence to each of the following stages is an absolute imperative: -

All new applications u/s 10A for starting postgraduate course are necessarily required to be submitted with the Central Govt. between 1st of April to 30th of April of any year. This Hon'ble Court has already held in the case of UOI Vs. All India Children Care and Educational Development Society– (2002) 3 SCC 649 (para-5 at pg.652, that it is only such applications which are complete in all respects as per the qualifying criteria laid down in the statutory regulations, deserve to be treated as applications u/s 10A of the Indian Medical Council Act, 1956 which then become eligible for consideration u/s 10A of the respective enactments.

The 2nd stage imperative is that the complete applications which are received by the Central Govt. between 1st of April to 30th of April are then required to be forwarded to the MCI positively before 31st of May of that year in which the fresh applications are submitted to the Central Govt. The Central Govt. is, therefore, obliged to forward the complete applications u/s 10A of the Act to the Council by 31st of May and not thereafter.

Upon receipt of the application from the Central Govt. on or before 31st of May, the Council is required to undertake the exercise of evaluate those applications and conducting inspections for sending recommendation to the Govt. of India, for grant of Letter of Permission (LOP). This exercise has to be completed by the Council on or before 31st of January and this time stage is also an absolute imperative.

Statutory time schedule permits the Central Govt. to issue of Letter of Permission to a medical college for permission to establish a new medical college on or before 28th of February.

11. In the similar facts and circumstances the Hon'ble Supreme Court in the case of BOG, MCI Vs. Index Medical College and Hospital and Research Centre – SLP (C) No. 13465/2013 vide judgment dated 05.08.2013, was pleased to allow the SLP filed by the MCI and set-aside the directions passed by the Hon'ble High Court of Madhya Pradesh, whereby, the Hon'ble High Court had directed the Council to conduct the inspection of the medical college who had failed to submit the consent of affiliation alongwith their application / scheme before the cut-off date as provided in the statutory regulation of the council.

12. Similarly, the Hon'ble Supreme Court in SLP (C) No.22910 of 2013 in the case of Educare Charitable Trust Vs. Union of India & Anr. while upholding the time schedule for submitting the application for increase in admission capacity in the BDS course vide recent judgement dated 17.09.2013 was pleased to held as under :-

“.....9. Having regard to the above, it is not possible to accede to the request of the petitioner to change the time schedule when the last date for a meeting the students, which was July 15, 2013, expired long ago. If the Central Government forwards the application to the DCI at this juncture, DCI shall hardly have any time to look into the feasibility of the scheme as per the requirements contained in the regulation 21. We have to keep in mind that in the schedule annexed to the Regulation 2006, six to eight months time is given to the DCI for this purpose. We are, thus, of the view that the High Court did not committed any error in holding that in the given circumstances mandamus cannot be issued to the Central Government to exercise its discretionary powers in a particular manner to modify the time schedule. Sanctity to the time schedule has to be attached. It is too late in the day, insofar as the present academic session is concerned, to give any direction. This Court has highlighted the importance of cut-off date for starting professional courses, particularly medical courses, and repeatedly interest upon that such deadline should be tinkered with. (See: Priya Gupta Vs. state of Chhattisgarh (2012)7

SCC 433 and Maa Vaishno Devi Mahila Mahavidyalaya Vs. State of U. P. (2013)2 SCC 617.

We, thus, do not find any error in the impugned judgement of the High Court.

This petition is bereft of any merit and is accordingly dismissed....”

13. The Hon'ble Supreme Court vide judgment dated 20.08.2015 in the case of Royal Medical Trust & Anr. Vs. Union of India & Anr.- (2015) 10 SCC 19 has categorically held that any scheme / application, which is incomplete is liable to be rejected, at the very outset.

14. Similarly, in Padmashree Dr. D.Y. Patil Medical College Vs. MCI & Anr., - (2015) 10 SCC 51, the medical college had failed to submit a complete application for establishment of new medical college from academic year 2015-16 as the said application was not accompanied with essentiality certificate as well as letter of consent of affiliation and had submitted the said documents only after the cut-off date for submitting complete scheme had passed. Therefore the Govt. of India disapproved the application of the medical college and returned the same. The Hon'ble Supreme Court after considering the catena of judgments and statutory time schedule of Council vide judgment dated 31.08.2015 directed the Council to consider the scheme of the medical college, therein, for next / subsequent academic year.

15. In Poonaiyah Ramajayam Institute of Science And Technology Trust Vs. MCI - (2015) 10 SCC 83, the medical college, therein, had submitted an incomplete application for establishment of medical college as neither the essentiality certificate nor the letter of consent of affiliation was enclosed alongwith the application. The essentiality certificate as well as letter of consent of affiliation, were subsequently submitted by the medical college, i.e. after the cut of date for submitting complete application u/s 10A of the Act. The Hon'ble Supreme Court after hearing the parties, while relying on the judgment dated 17.09.2015 passed in Padmashree Dr. D.Y. Patil Medical College Vs. MCI & Anr., - (2015) 10 SCC 51, directed the MCI to consider the case of the medical college, therein, for subsequent academic year.

16. In the case of MCI Vs. V.N. Public - (2016) 11 SCC 216, initially the Hon'ble High Court of Kerala had directed the Council to consider the application of the medical college, therein, for establishment of a medical college, and take into consideration the revised essentiality certificate submitted by the medical college after the last date, i.e. 30.09.2015 for submitting complete application / scheme u/s10A of the IMC Act, 1956 was over. The Council being aggrieved by the above said directions passed by the Hon'ble High Court, approached the Hon'ble Supreme Court and the Hon'ble Supreme Court was pleased to hold as follows:

“.....

16. The impugned order [Medical Council of India v. V.N. Public Health & Educational Trust, 2016 SCC OnLine Ker 431] passed by the High Court is to be tested and adjudged on the anvil of the aforesaid authorities. The application for grant of approval was filed with the essentiality certificate which was a conditional one and, therefore, a defective one. It was not an essentiality certificate in law. In such a situation, the High Court could not have directed for consideration of the application for the purpose of the inspection. Such a direction, we are disposed to think, runs counter to the law laid down in Educare Charitable Trust [Educare Charitable Trust v. Union of India, (2013) 16 SCC 474 : AIR 2014 SC 902] and Royal Medical Trust [Royal Medical Trust v. Union of India, (2015) 10 SCC 19] . We may further proceed to state that on the date of the application, the essentiality certificate was not in order. The schedule prescribed by MCI, which had been approved by this Court, is binding on all concerned. MCI cannot transgress it. The High Court could not have gone beyond the same and issued any direction for conducting an inspection for the academic year 2016-2017. Therefore, the directions issued by the learned Single Judge and the affirmation thereof by the Division Bench are wholly unsustainable.

17. Consequently, the appeal is allowed and the judgments and orders passed by the High Court are set aside. It will be open to the Trust to submit a fresh application for the next academic year in consonance with the provisions of the Regulations of MCI and as per the time

schedule; and in that event, it will be considered appropriately. In the facts and circumstances of the case, there shall be no order as to costs

17. Recently, in W.P. (C) No. 178/2017 – KPC Medical College Vs. Union of India & Anr., the medical college, therein, had failed to submit the letter of consent of affiliation issued by the concerned affiliating university alongwith their scheme for starting of Postgraduate medical courses from the academic year 2017-18, before the last date for submission of the said schemes. However, the medical college had submitted the valid consent of affiliation, within, thirteen days, after the expiry of cutoff date. The Govt. of India had, after considering the recommendations of the Council, returned the schemes. The medical college being aggrieved by the decision of the Govt. of India, approached the Hon'ble Supreme Court by way of the above-said writ petition. The Hon'ble Supreme Court, after hearing the parties, vide order dated 21.04.2017, while disposing of the writ petition, directed the Council to treat the schemes submitted by the medical college to be valid for subsequent academic year i.e. 2018-19 and consider the case of the medical college, in accordance with the provision of IMC Act, 1956 and the Regulations made thereunder.

18. The Hon'ble Supreme Court further in the case of Royal Medical Trust (supra), has also clearly held that the physical assessment / inspection to be carried out by the Council shall have to have an element of surprise and the time schedule upheld in the said judgment prescribes various stages of processing of application and the same cannot be completed at this stage.

19. In order to make sure that every medical college fulfills the requirements, as stipulated under IMC Act, 1956 as well as the Regulations made thereunder, and does not indulge in any kind of window dressing in order to obtain favourable recommendation, it is essential that every inspection carried out by the MCI assessors should have an element of surprise. Therefore, any physical assessment / inspection carried out at this belated stage shall not have element of surprise, as there are only 09 days left, since the last date for MCI to send its recommendation to the Govt. of India is 30th April, 2017.

20. Further, the Hon'ble Supreme Court in catena of cases, including Mridul Dhar (Minor) Vs. Union of India & Ors.- (2005) 2 SCC 65 and Priya Gupta Vs. State of Chhattisgarh- (2012) 7 SCC 433, has held that any authority / body/institute / person/ college etc., violating the statutory time schedule shall be liable for contempt of Court and shall be proceeded against personally.

21. Keeping in view the above-mentioned judgments / directions passed by the Hon'ble Supreme Court as well as the statutory time schedule of the Council, as upheld by the Hon'ble Supreme Court, it is impermissible for the Council to consider or process the schemes for establishment of new medical colleges, submitted by the above-named applicant medical colleges, from the academic year 2017-18, at this stage. This if deemed appropriate may be conveyed to the Oversight Committee and MHFW in response to OC communication dated 17.04.17.”

In view of above, the Executive Committee of the Council decided to accept the opinion of Law Officer and to reiterate earlier decisions and to not to process the applications.

The decision be conveyed to the Oversight Committee and Central Govt.

The Executive Committee of the Council further noted that the the Central Govt. vide its letter dated 20.08.2016 had granted approval to the said college for renewal of permission for admission of 5th batch (100 seats) u/s 10A of the IMC Act, 1956 for the academic year 2016-2017, in light of the directive of the Supreme Court Mandated Oversight Committee (OC) subject to submission of bank guarantees, affidavit and some other conditions.
