Deficiencies 1, 4, 5, 6 and 7 stay as such and deficiency 2 & 3 need verification.

1. RHTC is not as per norms. It is a single storey structure, poorly maintained, having 4 small rooms of total area 90 Sq.m. Nothing else is there in terms of interns' hostels, mess facility, seminar room, residences, etc.
2. No transport facility is provided. Current logbook of the vehicle showed only 3 visits to RHTC in last 4 months; rest of the times the vehicle was in use at college HQ only.
3. Personnel shown as staff at RHTC as claimed by the college is not correct. In reality, it is manned by 3 persons only – 1 M.O., 1 Technician & 1 Sweeper as evident from the attendance register. Authorities vainly tried to cheat the assessor by pasting original pages of attendance of May 2013 up to 22nd May 2013 and marking new attendance on next page for the whole month with 11 persons working there. Names of students (non-resident) going there thrice weekly were also changed.
4. Service component at UHC is very poor as it provides service to about only 15 – 20 patients daily and service facilities are in very rudimentary stage. There was no evidence of any test being done at the so called "laboratory". The building is old, waiting demolition. For new building estimates have been sent to Government.

1. Number of patients admitted in last 3 years (IPD)

Year	2012	2013	2014
IPD	6539	6645	7072
<b>Total number of Major Surgeries + deliveries + Caesarean Sections</b>	7375	6956	8126

From above it is clear that Major Surgeries + Deliveries + Caesarean Section are more than the number of total patients admitted, which is not possible. It is also pertinent to mentioned here that there are large number of Minor Surgeries and some of them must have been done after admission and there are also some patients admitted who do not require any surgery or they are not cases of delivery.

2. Total number of births in 2014 is 4902. However, as per table on page 2, there were 5996 deliveries + Caesarean Sections. This is a data mismatch and not feasible. The data appears to be non-genuine and fictitious.
